SHORT

accent braid

HOW-TO: Play up a cute bob with a little side braid! Make a part and gather a one-inch section in front. Braid it back toward your ear and use a bobby pin to secure it!

MEDIUM

crisscrossed plaits

HOW-TO: Your hair is the perfect length for a braided updo! First, part hair on one side and separate into two sections. Then French-braid both sides, crossing them in the back. Hide the ends by tucking them under and pinning in place.

LONG

messy french

HOW-TO: Show off your fun side with a French braid that has a textured twist! Tease the top section of your hair back toward the crown of your head and separate into three sections. Begin braiding hair, gathering more hair as you go and leaving a few pieces loose so you can twist them around the braid. (It will help it look more messy!)
